

Case No.: 2015-0481

Date Rec'd: 9/22/15

Specialist: _____

FOIA Resource

From: Samuel Anthony Hellings (b) (6)
Sent: Monday, September 21, 2015 3:13 PM
To: FOIA Resource
Subject: [External_Sender] Request for Information SL-1 Reactor Incident

To: Nuclear Regulatory Commission
From: Sam Hellings
For: School report on SL-1 reactor accident

I would like a copy (scan) of SL-1 Reactor Accident Autopsy Procedures and Results, LAMS-2550

Idaho Test Station
General Electric Company
July 27, 1962
United States Atomic Energy Commission

I have found a similar request for this document, but only the interpreted version done by the author for a book, not the primary source.

Any help would be appreciated. This information is only intended for use as reference material.

Thank you,
Sam Hellings
